VOL. VIII.

RENO, WASHOE COUNTY, NEVADA. FRIDAY, NOVEMBER 28, 1879.

NO. 51.

ALL SORTS.

Of the 200 inmates of the State almshouse of Providence, only five or six are Americans.

Two hunters at Circleville, Ohio, smoked over a powder keg and an explosion blinded them for life.

The minimum height of English infantry recruits has been raised from 5 feet 5 inches to 5 feet 6 inches—which means that the supply is now in excess of the demand.

The grand jury of the superior court at Greenfield, Mass., has indicted the inhabitants of a New Salem school district for failure to provide a suitable school house for the children.

The London Times shows that, although many of the English straw plaiters are working for six cents per day, their productions cannot compete in price with the Canton plait at present flooding the market.

A drunkard handed a bottle of whiskey to his son for safe keeping, at Stanford, Ky. The boy dropped and broke it, spilling the liquor. The loss so enraged the man that he shot and killed the boy offender.

Fifty per cent. of the Mississippi cotton crop of this year is reported to have been produced by white labor. The cotton crop of the whole country is announced as the largest on record. In many districts it will not pay for picking and is left in the fields.

The fact that Little Norway has the second largest commercial fleet in the world, is alleged to be due to the fact that villages pool their savings to build or buy a ship, instead of, as here, putting them into a savings bank to buy fast horses, etc., for a delinquent manager.

Among the many scattering votes at the late State election was one in Syracuse reading thus: "For Governor, The Devil." It has been said of many men that they would vote for the devil, if regularly nominated; this is, perhaps, the first case of actually voting for him—on a split ticket at that.

The Pope is in most things excessively economical, but his charities act as a constant drain on his resources. When he ordered \$4,000 to be sent to the Murcian sufferers he was told that money was wanting. Recourse was about to be had on a loan from a bank, but some Peter's pence were opportunely presented.

The bride of a week, at New Philadelphia, Ohio, mysteriously disappeared. The pair had married for love, nothing had happened that could raise a reasonable regret, and it was feared she had met with an accident. The truth was, growing homesick, she had quietly taken a train for the paternal roof.

A curious calculation has been made by a Continental statistician as to the amount drawn by various sovereigns from the civil list. According to this it appears that the Czar has 125,000,000 per day; the Sultan, 90,000,000; the Emperor of Austria, 50,000,000; the Emperor of Germany, 41,000,000; the King of Italy, 32,000,000; and the King of the Belgians, 8,215,000.

A German has discovered exactly how many people miss their trains at Vienna depots. At a single depot he found that out of 5,400 to 5,500 passengers one man and two or three women were too late. Taking all the stations he found the number averaged ten a day. More people miss local than express trains, and more miss in summer than in winter.

A banquet was recently given to the mayor of Stafford, in England, at which, in consequence of his wife having given birth to a daughter during his mayoralty, he was presented, in accordance with an ancient custom, with a silver cradle, which, with its supports, weighed over 200 ounces, the whole standing thirty inches high. The cost of the cradle was defrayed by public subscription.

The inhabitants of the Bordelais country are prone to exaggeration, but one of them recently met his match. He was dining with a Japanese friend on the Boulevard, and mushrooms came under discussion. "In my country," said the Bordelais, "the mushrooms under the trees are larger than these plates." "What of that?" exclaimed the Jap. "In my country it is the trees that grow under the mushrooms."

A Living Man One Hundred and Eighty Years Old.

From the New York Sun.
There lives in the republic of Salvador at present a venerable gentleman named Miguel Solis, who is 180 years of age. There is no doubt at all about it. He signed a document relating to the building of a convent in 1723, being then 33 years old. When Dr. Hernandez lately called on him he was at work in his garden. He takes one strong, nourishing meal each day, except on the 1st and 15th of each month, when he eats nothing, but drinks as much water as he can. We are not told whether he is a teetotaler, or drinks the wine of the country, which is called "sangre de uva"; but it is stated his skin is like parchment, his hair white as snow, while his eyes have a most lively expression.

For Cheap Drugs, Toilet Articles, Patent Medicines, Perfumery, etc., call at Jno. F. Myers' Drug Store, two doors west of the postoffice.

The Proper Form of Address.

From the New York Sun.

The only proper way of addressing an entire stranger is by the monosyllable, Sir. Dear Sir may be used in writing to a person with whom you have some acquaintance; but if it is a man you have never seen and never communicated with, such familiarity is not right. It is true, however, that Americans use it, addressing every man indiscriminately as Dear Sir; but the practice is absurd. How can one be dear to you whom you have never known?

To be Taken to Truckee.

From the S. F. Bulletin.

L. Howe and Nellie Axton arrived here from Truckee last Saturday, closely followed by a telegram to the Chief of Police, asking for their arrest for burglary. Mrs. Axton stated that she had rented a house in Truckee and went away without giving the landlady notice and owing her five dollars rent. The arrest, she said, was malicious. She stated that she has no knowledge of having feloniously entered any house in Truckee. The accused will be taken to that place for examination.

Cinchona Rubra.

There are now two kinds of drunkenness, continuous and peridical. Either kind may be termed in all respects, a disease. That it is such is proved by the one fact—afflicted parties are frequently compelled to drink against their will or better judgment. Nothing will restrain them; neither the prayers of friends, the tearful entreaties of wives and children, nor the imminent ruin of their private affairs.

The principal predisposing cause of drunkenness is a sanguine temperament, a strong irritable nervous system. Daily observation shows that men excelling in body and mind are more disposed to drunkenness than those of feeble habits. These weaklings affected with headaches after drinking rarely become drunkards.

THE CURE—CINCHONA RUBRA.

Cinchona bark was introduced into Europe about the year 1638, but it was not until about 1737 that the plant producing it was known to naturalists. In that year, a French man, on a journey to Lima, Peru, had the opportunity of examining the tree, a description of which (upon his return to Paris) he published in the Memoirs of the French Academy. So in thereafter, Linnaeus, the botanist, gave it the name of "Cinchona Officinalis," in honor of the Countess of Cinchon, wife of the Viceroy of Peru, who had been healed miraculously (as the Jesuits of the day believed) by drinking from a pool of water into which the top of one of these trees, blown down by the wind, had fallen.

Cinchona stands at the head of all tonics. When taken into the stomach a pure tincture of it usually excites in a short time a warmth which diffuses itself over the whole body. After some moments have elapsed the circulation experiences its influence, as exhibited in the somewhat increased frequency of the pulse; and, after a few doses are given at regular intervals, the whole system becomes more or less beneficially affected, and all the functions undergo a moderate degree of excitement. Its action upon the nervous system is often evinced by a sense of tension, or fullness or slight pain in the head, ringing in the ears, etc.; overdoing brings partial temporary deafness. But, besides the mere excitation of the ordinary functions of health, it produces other effects upon the system which must be considered palliative and independent of its mere tonic operation. That power by which, when administered in the intervals between the paroxysms of a disease it interrupts the progress of the malarial; is something more than what is understood by the tonic property; for no other substance, however powerful or permanent may be the excitement which it produces, exercises a control over periodical affections at all comparable to Cinchona.

In all periodical diseases, such as occasional "sneezing" and ague, there are intervals of rest or freedom from the effects of the train of morbid actions going on in the recesses of the nervous system, and but one remedy is known which has the power during this intermission of preventing a return of the condition experienced prior to its administration. That remedy is Cinchona Rubra. Exactly how it does this has not yet been satisfactorily explained; but that it does it has been acknowledged for over a hundred years. Indeed, all well-read and experienced medical men admit that Cinchona has this wonderful anti-periodic property. Prepared and sold by Dr. R. Danger, Palmer House, Chicago, Illinois.

Guilty as Charged.

That Bright's disease, Diabetes, Pain in the back and loins, Smarting, Inflammation, Catarrh, Brickbat deposit, or any trouble of the Kidneys as Bladder, is cured by the use of Dr. Mayr's Nephropur, the great Buchu Compound. It is the most wonderful prescription ever compounded for these troubles. Messrs. Abrams & Carroll, wholesale druggists, say: "We regard Nephropur as the best Kidney and Bladder Remedy in the market." Woodward, druggist, Portland, Oregon, says: "Everybody speaks highly of it." Childs, druggist, Portland, Oregon, says: "Sold lots of it; it always does the work." Many have been cured of obstinate kidney complaints, and the doctors have given them up. For sale by Osburn & Shoemaker. Price \$1.50.

A Card.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, etc., I will send a recipe that will cure you, FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the Rev. Joseph T. Leman, Station D, New York City.

THE DAILY

GAZETTE!

The Cheapest Paper in Nevada!

Is the largest daily on the Pacific railroads, and contains more home news than any paper in the State. To any one who is interested in stock raising, agricultural pursuits, or mining in western Nevada, the Evening Gazette would be worth thrice the money. The Gazette will be in the future, as in the past, devoted to spreading information of the resources of Washoe county first, and of the whole great interior basin next. Its mineral wealth, agricultural possibilities and manufacturing capacity are almost unknown and furnish matter for the live journalist, second to no part of this coast.

IMPORTANT CHANGE OF MAIL ROUTE.

The GAZETTE has made frequent reference to the value of having mails for the northern country go via Reno. One by one the difficulties in the way have been removed, until now the only missing link is between Alturas and Cedarville. W. F. Edwards of the Modoc Independent, has recently bent his energies to having this link completed, by the increase of the service to a daily mail, to connect at noon with Patterson & Calderwood's Reno stage, which passes Cedarville, going north, at noon, and south at 11 A. M. Edwards thinks he is sure of the increase now, and says the people of Modoc county, Cal., and Lake county, Oregon, are all greatly pleased with the prospect of a more intimate union with Reno. Everybody up there has signed the paper, and it is only opposed by the people in Redding and Adin, who do not want travel to leave their route, as it certainly will. The time by the way of Reno, from Alturas to San Francisco, will be 51 hours. Now from Alturas it takes 73 hours to get to Redding, and 16 from there to San Francisco.

EDITORIAL NOTES.

F. A. Herring of Virginia is in Reno and having spent Thanksgiving with J. S. Tolles, who is his brother-in-law. Mr. Herring is engaged in perfecting an electric light which he believes will solve the difficult problem which has baffled Edison.

Now that A. G. Bierce, one of the wittiest paragraphers in the country, is again on the Argonaut, we still more regret to find that entertaining journal missing from among our exchanges.

A miner's cabin in Warren's camp, Idaho, had been robbed, and two suspected Chinamen were lodged in jail to await trial. Just to make an example of them, the miners took them out in the night and hung them to a tree. It afterwards appeared that they were innocent, so that when the guilty parties are found the miners will have still more hanging on their hands.

One of the most striking stories of the proverbial pertinacity of the book-agent comes from San Bernardino. Wearied with his importunities, the young men of that place on Monday night fell upon Louis Hermann, a book agent, and rode him a mile out of town on a rail. Tuesday morning, the indomitable agent was in San Bernardino, diligently pursuing his avocation. The subsequent proceedings have not yet been reported.

The S. F. Call announces that St. Julian's attempt to beat his own best time of 2:12 1/2 will be made to-morrow on the Oakland track, weather permitting.

Sarah Winnemucca, daughter of the Piute chief, Winnemucca, lectured in San Francisco Tuesday evening on the history and condition of her people. Sarah speaks English fluently and has received a liberal education.

Last week at the old horse sale of Wells, Fargo & Co., at Portland, a young man purchased a black valise for a dollar or two, opened it and found it filled with clothing, also a gold watch and chain, a silver cup and some very fine jewelry of a miscellaneous character. Another man paid \$36 for a box of last year's almanacs.

There was a serious affray in Bodie Monday evening. John A. McQuaid, a prominent lawyer, and Thomas Muckle, a laborer, became involved in a dispute, both being in liquor, and somewhat excited. During the controversy Muckle struck McQuaid with the latter drew a dirk knife and stabbed Muckle in the abdomen, inflicting a dangerous and perhaps fatal wound.

The Weekly Miner thinks that the prosperity of Northern Arizona is doomed; there being, notwithstanding the rich minerals of that section, a lamentable lack of water, hard times generally, and lack of Eastern and California capital. The Arizonian replies with acrimonious vigor.

The Seattle Post says the United States recently sold two million feet of logs, sized for cutting on government land, for \$4 a thousand. Generally the loggers buy them in for a song, but this time the officers were too smart for them and got full rates for the logs.

Andrew Briawater of Los Angeles has sold his orange crop at the rate of \$15 per acre. He estimates the crop at 1,500,000 oranges. This aggregates the nice little sum of \$22,500.

PACIFIC COAST ITEMS.

Como now contains about forty-five houses.

San Joaquin county with a population of 85,000, raised 120,000 tons of wheat this year, which nets the sum of \$4,000,000.
Next Saturday there is to be a great rabbit hunt at Kayaville, Utah, which will draw hunters from all parts of the Territory.
Last week's Bidwell races, Modoc county, were over a muddy track and during stormy weather, but gave good satisfaction.
A number of sheep are running wild between the Middle and North Yuba rivers, Nevada county. Their wool is from 19 to 18 inches in length.
The Belcher incline has just attained a vertical depth of 8,000 feet, making it the deepest "hole in the ground" to be found anywhere on the American Continent.
The Mormon Church owns 17,000 head of cattle, paid in for tithing. It also possesses thousands of tons of rutabagas and squashes, derived from the same source.
The report that the Catholic priest at Bodie has asked for help in his work of attending funerals, is taken as pretty good evidence of a large mortality list over there.
The pleasing intelligence is received says the Press, that Bodie ladies smoke cigarettes. When it is said that Bodie ladies smoke cigarettes, it is meant that the very best ladies of the town do it.
The San Juan Independent reports a big strike in Sierra county. The greatest excitement prevails. The quartz is of a bluish color, and contains not only gold, but silver in great abundance.
The greatest blow yet struck at Mormonism is the advent of a lot of stock brokers in Salt Lake City. The Tribune says that stock brokers are becoming so numerous there that the formation of a stock board is probable.
The Arizonian says that the country about Tombstone is overrun with destitute, helpless men, soliciting employment and finding none. The mines are said to be good enough, but they can give work to only a few persons.
Sir Astley Cooper's Vital Restorative: The great English remedy—has many more cures of Nervous Debility, Seminal Weakness, Lost Manhood, nocturnal emissions, lassitude, inability for mental labor, despondency, and such diseases as are induced by youthful follies and excesses, than all other medicines combined.

Solid Abyssinian Gold Watch FREE! FREE! FREE!!!

The above offer is genuine, although at first sight you would consider it impossible. For will explain: Since we first established our business here, March 1st, 1878, we have paid particular attention to the buying of Bankrupt and Auction lots of Jewelry and Watches often buying at as low as one-tenth their value, and in no instance have we paid over one-sixth the manufacturer's price.

Since starting we have always been able to dispose of these goods in Chicago and through our regular customers throughout the country at nearly regular prices, as fast as we could procure them, but owing to the large number of failures among the heaviest dealers and manufacturers throughout this and other countries during the months of June, July and August (the time when the jewelry business is stagnant), we have now on hand an immense stock of the most desirable goods we have ever handled, and which we have bought at lower prices than ever before.

In order to dispose of this entire stock in the most speedy manner possible, and make room for new ones which we shall continue to buy, we have hit upon the following novel plan:

We propose to give you a list of the most desirable of these goods, giving opposite each article its regular retail value, and sell to you at the rate of Five Dollars per \$100. In other words, on receipt of \$5.00, we will send you, POSTPAID, any article to the value of \$50.00; on receipt of \$10.00, we will send you \$100.00; and so on throughout the entire list. Below we give a list of the most valuable of these goods.

CHAMPAGNE POWDER!

Messrs. James S. Taylor & Co., 116 Front Street, San Francisco, Cal. We are using our Champagne Baking Powder, and with our best flour, we pronounce it perfect. No reasonable person could ask for a better powder. Use as directed and it never fails—only one teaspoonful to a quart of flour.

W. R. CHAMBERLAIN, Reno, Sept. 23d, 1879.

OFFICE OF THOMAS PRICE, Sacramento Street, San Francisco, May 24, 1879.

Messrs. J. S. Taylor & Co.—GENTS: I have made a careful examination of bread and biscuit prepared under my own direction by those of your Champagne Baking Powder, and find that they do not contain alum or any other injurious or deleterious ingredients. Respectfully submitted,

THOMAS PRICE, Assayer and Chemist.

INTERNATIONAL HOTEL, VIRGINIA, NEV., Sept. 18, 1879.

Messrs. James S. Taylor & Co., 116 Front St., San Francisco—GENTS: I can make better results with one teaspoonful of your flour with your Champagne Yeast Powder than with three teaspoonfuls of any other I have ever used. If there is a yeast powder anywhere in the world equal to it, I have never seen or heard of it. As a baker I pronounce this powder simply perfection.

Mr. Ambrose Huser has been with me 24 years. He is a first-class baker, and I endorse the above.
